“ Stacey,

Every time we look out our door we think of Nelson and miss him greatly. Jim and I enjoyed him and admired his work ethic and determination. I know that you all were his greatest pride and enjoyment. We Pray that your memories help your grief and loss.

Nelson's neighbors,

Jim and Beth Koller

“ My grandfather, Nelson Starr, lived in Marco Island for over 40 years. He was a devoted husband, father (Penny, Butch, Lisa) and grandfather (Stacey, Robin, Dylan, Brooke).

He loved his family and friends encouraging everyone to visit as much as possible. He enjoyed living near the water sitting on his lanai, sipping scotch, while observing all the wildlife the John Stevens river had to offer. Throughout his life, he was an avid golfer and played 18 holes until he was well into his 90's.

Nelson was incredibly industrious in his life. Growing up in Huron, Ohio, he took over the family Fox farm at 18 years of age and decided to start breeding Mink, as he saw a change in fashion and popularity shift from Fox to Mink. He bred Mink for over 40 years. He taught himself animal husbandry and developed unique and different colors of Mink pelts that he was extremely proud of.

Nelson was also incredibly astute in his knowledge and involvement in the stock market.

In addition, he was a pilot of his own plane and he was a boat captain well into his 90's.

We, as a family, are grieving at his passing, but through this we are grateful in knowing that he led a full and wonderful life living it exactly the way he wanted and that gives us such a feeling of peace.

Thank you, Stacey Landoll Dublin, Ohio
